

Stealth

The Dark Side

Stealth—this is a meaty guitar, a no bullshit weapon for those who play loud and hard. Matte black finish with defined top edge, double cutaway, one pickup, one volume knob and heaps of attitude. 25 1/2" scale. Cole Clark custom humbucker Solid timber Set neck (glued in neck) Colour: Matte black only Chrome hardware Mistress—the Mistress is a versatile instrument, with many available options. The Standard model is a double cutaway solid body with a separate plate top (all solid of course) and two humbucking pickups. Some of the choices are Queensland maple with a US rock maple top, blackwood with a bunya top, US rock maple with a blackwood top. There is a range of figured maple tops available also. You're probably getting the picture that we have some flexibility in manufacture here. Necks also come in different timbers, Queensland maple, US rock maple, blackwood etc. Strings are loaded through the back and the sustain is great. The Mistress is available with a sealed cavity body and also with cavity body with a soundhole (cat's eye or circular) with a grille matching the colour of the guitar's hardware. Yes, there are a lot of options, it's so you can choose.

25 1/2" scale.
Cole Clark humbuckers (Mistress neck and Mistress bridge). 2 volume, 2 tone controls, 3 way pick up selector. Solid timber Set neck (glued in neck) with either US rock maple or Indian rosewood fingerboard. Colour: stealth
